## Insight into needs

Deep Diagnosis

---

Through professional consultation, gain precise insights into the core pain points of customers in terms of insulation efficiency, cost, specifications, and other aspects

---

2

## Customized solution

Technical Customization

---

Based on customer needs and our process capabilities, our technical team provides customized solutions

---

3

## Sample confirmation

Sample verification

---

Communicate with the client and confirm the details of the plan, provide samples for physical functional verification

---

4

## Solution optimization

Precise optimization

---

Based on the feedback from sample testing, iterate and optimize the plan to ensure a complete match with the application scenario

---

5

## Bulk supply

Mass production delivery

---

After the final confirmation of the plan, standardized mass production will be initiated to ensure stable and efficient supply
