Fresh Food

Customized solution

1

Insight into needs

Deep Diagnosis

Through professional consultation, gain precise insights into the core pain points of customers in terms of insulation efficiency, cost, specifications, and other aspects

2

Customized solution

Technical Customization

Based on customer needs and our process capabilities, our technical team provides customized solutions

3

Sample confirmation

Sample verification

Communicate with the client and confirm the details of the plan, provide samples for physical functional verification

4

Solution optimization

Precise optimization

Based on the feedback from sample testing, iterate and optimize the plan to ensure a complete match with the application scenario

5

Bulk supply

Mass production delivery

After the final confirmation of the plan, standardized mass production will be initiated to ensure stable and efficient supply
